LEADING WITH A COACHING STYLE – UCT certified courses

“As a leader, you have roughly 100 conversations a year that are of particularly high value—in the sense that they will change your life or the life of the person you’re talking to. We want to help you acquire the skills to maximize value in those 100 conversations, to unlock previously hidden issues, to uncover new options, and to reveal fresh insights.” – *HBR, 2019*

With a significant proportion of work now virtual and online, how leaders and managers verbally connect with their teams is an essential skill.

Our new **Leading with a Coaching Style** series is designed to develop leaders holistically and amplify their capacity to handle many different types of situations, through the use of powerful conversations.

- **Registered as UCT short courses**, these interactive, practice-based courses have the following flexibility built in:-
 - Attend all 6 courses – highly recommended, as each one develops and deepens an important leadership coaching skill. If you do all 6, **we will give you 2 days FREE.**
 - Any course can be taken as an individual, self-contained course, for CHF300 should you have a very particular need.
 - Delegates can select and combine the courses that best strengthen a specific capacity you would like to build

- The theoretical foundations of all these conversations are based on our Integral Coaching® approach.
- All courses will be run using our world-class live-virtual, fully interactive online teaching methodology.
- You will be awarded a UCT certificate for each of these courses.
